

Sponsorship Proposal For

LetsPy BOOTCAMP Nagpur 2019

Brought to you by GirlScript Nagpur Chapter

20th - 21st July 2019
At Deshpande Hall, Nagpur

About GirlScript

GirlScript Foundation Pvt. Ltd. is a section-8 company registered under the government of India 2017. GirlScript is the fastest growing tech company in India. It is a non-profit project brought up by GirlScript Foundation to help beginners in technology.

The name might mislead a bit, but GirlScript supports diversity in tech. Although it should be remembered that we are not a Women-Only organization and welcome everyone to join us.

About GirlScript Chapters

GirlScript Foundation currently has 36 chapters in India and 3 International chapters. It is a not-for-profit community for students, software developers, IT professionals, designers, entrepreneurs, and open source enthusiasts. We believe in being the force to break the monotonous flow of learning amongst students in India.

We primarily focus on beginners. At GirlScript we try to entertain members from all domains irrespective of their experience, gender and age by conducting free workshops and interactive hands-on sessions. Our aim is to build an open community of learners, where everyone feels excited about exchanging ideas and knowledge along with learning together.

Need of Organization Like GirlScript in India:

1. We believe in to-the-point learning and have the required foundation, which is fit for the Indian structure with vast linguistic and regional diversity.
2. Students tend to buy projects while pursuing their mandatory degree projects.
3. There is a large gap that needs to be bridged between the industry and academia due to loopholes in course curriculum followed by educational institutions.
4. There are a lot of opportunities available in the tech-industry but not everyone gets to know about it. Many people fail to grab it even after being aware of it
5. Local mentors and help is a better way to learn, share and lean in together.
6. The tech industry is not as diverse as it can be.

About LetsPy Bootcamp

LetsPy is India's Biggest Python Programming BootCamp organized by GirlScript Foundation in association with Mozilla. LetsPy is an initiative to make them learn by dedicating a whole weekend and taking them from basics of Python to advance levels. It will be the biggest gathering of Py-Mentors and Learners.

The Two days BootCamp gives an overview of getting started, where attendees build some small applications using Python and learn the use of Python in the fields like Data Science, Machine learning, Cloud etc. LetsPy India Tour 2019 is a proud home to over 2500 participants and 60 mentors from 10 cities of India. The BootCamp is well structured after surveying each city and then customizing the syllabus for attendees. We will be having this event with over 3 experienced mentors who will be giving hands-on programming workshop with the help of trained organizers. Hence, excellent results are guaranteed.

Skilled in Python and Embedded C (Programming Language), Medical Devices, Microcontrollers, BLE, Public Speaking, and Management. Strong engineering professional with a Master of Technology - MTech focused in Electronic Engineering from Veermata Jijabai Technological Institute (VJTI).

Ms. Anubha Maneshwar

Anubha Maneshwar is a 23 year old founder at girlsript foundation pvt Ltd - which is India's biggest tech community and organisation to support beginners. Currently her organization is working in 36 cities of India and has impacted over 10000 beginners. She is winner of 35 under 35 awards in best startup for education Category and India's Top 100 young leaders award. A mentor at Mozilla Open Leaders Program, Learn IT Girl and speaker at PyCon North America, she loves to help people and wants to transform how education system works In India

Mr. Utkarsh Gupta

With his sheer passion to talk, communicate, build and carry conversations with different people, he then decided to be in the field of speaking. Debating was his hobby, communicating was his passion, reading was his experience and understanding was his skill. This is when he realised that Bachelors in Journalism and Mass Communication is the course that suits him the most. Also, to mention that he was a superb performer, he was and is an awardy in the field of theaters and had represented himself at the national levels too. His story doesn't ends here, he is the founder of 'Bliss Foundation' which is all youth driven and is based on social welfare. A ton of aids seminars, a huge list of of theatrical achievements, a brilliant experience at Marketing and Communications and sheer talent of writing is what he is known for. His story wouldn't end, as he has just started to write his book of success. A lot has to be added and a lot has to be revamped.

Why Sponsor Us ?

- Our events witness a large gathering of people. Thus, providing an excellent opportunity for business promotion.
- Our meetups attract candidates who are technological geeks.
- Our meetups encourage participants to develop digital solutions for the benefit of society and work hard to acquire the necessary skills.
- Our meetups foster a culture of collaboration among people with similar goals.
- We wish to encourage women to be a part of the technology industry.
- It'll be an opportunity for you to interact and network with potential interns and employees.
- It'll be an opportunity to give back to the community.
- We are more than happy to work with you and tailor the sponsorship benefits which suits you the best.
- We have been conducting these programs from the last two years and we have sponsors like tech Domains, Mozilla, Redhat, Jet Brains and many more.
